

above & beyond

News from Pastor Adam, Melinda & Micah Speedy

FEBRUARY 2010 Greater Grace Church in the Copperbelt, Zambia

Bible School in 3 cities

New Bible College with extension classes in neighboring cities just kicked off the beginning of our four year degree program here in the Copperbelt! The response was above &

beyond what we imagined. Part time students from other cities are taking Pastor Schaller's

Methods of Evangelism class by video in the week time, some are doing full time traveling to Kitwe on the weekends. We just had our first week of classes & more than 50 students showed up.

One lady named Lillian said she was so touched that our ministry does not put people into classes like the world. Our city is even divided into 1st class, 2nd class zones. We based our church in 2nd class area without even knowing it.

1st Annual Evangelism Seminar

This month we had our first outreach seminar resulting in 26 people at my house for the day covering the foundational principles of evangelism. For many they had never experienced anything like it.

One gentleman, Jones, from our outreach to Ndola was visibly broken meeting brothers and sisters from the ministry in

Kitwe & Chingola and just kept thanking over and over again for being able to come for the day. Afterwards I could see people exchanging telephone numbers and fellowshiping in the joy and liberty that truth brings (John 8:32).

Three Fathers

God is moving in Buchi. We have been evangelizing there 3-4 times a week for about a month. We now have about a dozen people in the area coming to our Tuesday meeting. Strangely, after getting to know them, it turns out that 3 of them, having no prior knowledge of each other had all at some point in their lives decided to be priests. It was with joy that they received the word "He has made us Priests and Kings unto our God!" They have been making much progress and are now in Bible school!

CHINGOLA

Pray for our newest city, Chingola, 45 minutes north of us and only minutes away from the Congo border. Our key contact, Makwakwa, is a Pastor who a few months ago pioneered a new church in this city and is really excited

about the message and vision of our ministry. He'll call me up with a group of guys listening to messages

from Baltimore and this past Monday when we showed Pastor Schaller's video class 25 men showed up! Their receptivity to the Word was unusual and edifying. We now evangelize in Chingola on Mondays.

Revealing Christ;

Living as a Young Family in a 3rd World Country

In the practical details of life we see God's hand daily. This week we had to get our car repaired. Literally *moments* after dropping it off, an early contact we hadn't seen in months suddenly drove up and offered us a ride to wherever we were going. It was so hot, we had so many bags, and it felt like he had literally been sent by heaven for us!

The following day before bible school, we were pressed for time and never got to the store to buy food... the staples pantry was on "e"! So we went ahead to class, not sure what we'd have for dinner (no late night shopping here!). After the class, on her way out the door, one of the students handed my wife a bag of pasta and said, this is for you!

Home Front Prayer Request

This June we are expecting the arrival of our second child! Please keep the pregnancy and delivery in your prayers!
